

IN THE CLAIMS

Please amend claim 1, as follows:

- A<sup>1</sup>
- 
1. (Once Amended) A telecommunications messaging system,  
2 comprising:  
a wireless subscriber unit;  
4 a base station in a first communication with said wireless subscriber unit;  
and  
6 a mobile switching center for causing said base station to engage in  
service negotiation with said wireless subscriber unit, said service negotiation for  
8 determining a service configuration for a second communication between said  
base station and said wireless subscriber unit.
-
